# OMEGA PRIVACY

OPENNESS FACTOR <1%  
SCREEN FABRIC

Your Solutions Weaver and Fabric Support Partner

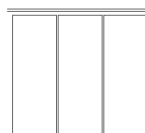

Omega Privacy fabrics provide excellent privacy and long-lasting durability. Unlike traditional Omega 0% blackout fabrics, Omega Privacy <1% fabrics have no coating on the exterior facing side of the fabric. This unique feature makes them more resistant to the elements and also a good option for use in exterior settings. The lack of coating also ensures front and back color and aesthetic design uniformity, as well as making the fabric lighter weight on tube hardware.
